Any and all versions of the Optimization Model for Emissions of Greenhouse Gases from Automobiles (OMEGA models), not previously made public, including but not limited to any OMEGA models used to inform EPA's Mid-Term Evaluation of Greenhouse Gas Emissions Standards for Model Year 2022-2025 Light-Duty Vehicles (the MTE), 83 FR 16077 (Apr. 13, 2018); and/or EPA and the National Highway Traffic Safety Administration's (NHTSA) expected joint notice of proposed rulemaking to revise model year 2021-26</p>

Selected FOIA Requests –8/8/18–8/15/18

light-duty vehicle (LDV) greenhouse gas (GHG) and augural Corporate Average Fuel Economy (CAFE) standards (the MY 2021-26 Proposal),² including any and all source code for the various OMEGA models' components and any and all documentation describing the logical flow and relationship between those components; 2. The "decision trees"; 3. input files; 4. data and analysis supporting the development of baseline vehicles and the OMEGA models' baseline fleet(s) of LDV; 5. cost estimates and/or cost projections; 6. actual or potential effectiveness in decreasing GHG emissions of all technologies described in #5, above; 7. maximum feasible penetrations of the technologies described in #5, above, across the U.S. fleet including all data and analysis related to the development of constraints to market penetration below what would otherwise be dictated by market economics; 8. Any and all data and analysis regarding the cadence, timing, and duration of product redesign and refresh cycles assumed for vehicles in the baseline fleet; 9. effectiveness of all technologies described in #5, above; 10. Any and all documents, instructions, and data methodology used to convert the vehicle data, technology costs, effectiveness estimates, ; and 11. vehicle sales, including sale prices (including both Manufacturer's Suggested Retail Prices and prices actually paid by consumers), consumer demand, consumer willingness to pay, consumer choice, consumer preference, vehicle mix across the US fleet, vehicle performance, scrappage rates, fleet size, fleet mix, vehicle miles traveled, safety, and/or fleet turnover rates used to inform the MTE or the MY 2021-26 Proposal.

12. impact on vehicle fuel economy and/or vehicle price on the amount of driving done by vehicle operators.

78. EPA-HQ-2018-010436

Mr.
Matthew
Hoffer

8/10/2018

EPA-HQ-OECA -
Office of
Enforcement and
Compliance
Assurance

Can you please provide me with the **average time it takes the US EPA for charges to be brought against an environment violator** (polluter)? 2. If an average is not possible, can I get a high-low range of cases of environmental violations? 3. Are there currently any **ongoing investigations** related to **Badger Daylighting Inc.**? 4. There is a whistleblower reward in California for alerting authorities about environmental violations. Is there a time limitation on that? I.e. Do the California Attorney General or the EPA have to bring charges against an offender within X years following the offence, or something along these lines? 5. Can the attorney general bring criminal charges to an environmental rule breaker?

Selected FOIA Requests –8/8/18–8/15/18
